We spread awareness among people which is going on in our surroundings, and in our country by different types of activities, and this is also a part of social service.

Awareness about COVID – 19 :- During spread of COVID – 19 all over the world, India also became victim of this Pandemic, and its name involved in the affected countries. And from the beginning of the lockdown period, we all faculty members have been continuously involve in different-different activities like :- Aware people about the seriousness of this

pendamic, Aware people about Social-distancing, Aware people about hand washing, motivate students to serve the nation in this critical time, Students also played important role during CORONA Spread, N.S.S. Volunteers prepared thousands of face mask and distribute them among needy people and villagers, Distributing food kits among needy people, feeding the animals,

In this way, I have tried to my level best to serve the society, my country and my institution, through DEPARTMENT OF N.S.S. I think, I am lucky enough to work as a programme Officer for the last six years, Constantly. Where I got a chance of motivating the students for the betterment of society, and I also got a chance of contribute to society by my own way, actually N.S.S. is a wonderful platform for the person who wants to serve the society by his own way, here a person familiarize with the problems of the society and try to remove them from society.

In this way, I have tried to my level best to serve the society, my country and my institution, through DEPARTMENT OF N.S.S. I think, I am lucky enough to work as a programme Officer for the last six years. Constantly. Where I got a chance of motivating the students for the betterment of society, and I also got a chance of contribute to society by my own way, actually N.S.S. is a wonderful platform for the person who wants to serve the society by his own way, here a person familiarize with the problems of the society and try to remove them from society.
