Student's Feedback

Session: 2020-2021

Analysis of Feedback and Action Taken Report

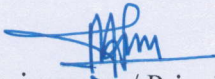

Student feedback is the regular practice of the college to collect feedback from the students manually in written form. For collecting feedback questionnaire is designed. This was the year of COVID-19 pandemic and very few feedback forms were manually collected by the students. Most of the teaching learning process was through online mode. For performing this practice Feedback Committee is formed and collected the feedback forms from the students after making evaluation on the basis of three point scale. The evaluation report is submitted to the IQAC and after considering the matter appropriate action has been taken by the IQAC Chairperson on the suggestion of the committee.

Sr. No.	Suggestion	Action Taken
01.	Online mode is difficult to understand so make the teaching learning process through Projector.	We have only three projectors, one is installed in classrooms of B. A. Part-I, one is in the Recreation Hall, and one is in the YCMOU Hall. These numbers are insufficient, so IQAC placed the request of the students to the Top Management.
02.	Make the teaching-learning through PPT	The demand of the students is considered seriously and informed all the teachers to make their teaching-learning process through PPT once in a week.
