

World Population Day

Date: 11 July, 2023
Venue: Shivaji Mahavidyalaya Gadchiroli
Organizer: IQAC and NSS Department.

Objectives of the Event:

01. To know the side effects of the population explosion
02. To know the threats of the over population.

Brief Report:

The World population is reaching at 8 billion and it threatens to whole world humanity. In the middle of 2023, about 60 percent of the global population was living in Asia. And it is very needed to control population. To make aware to the students and nearby people, we organized the rally and the objective of the rally is to make aware the local people about the threats of population and appealed to control the population through the rally. The rally started from the college and moved around the local area via main square of the city i. e. Indira Gandhi Square. The students and teachers were participated in the rally.

Event Outcomes:

The students and local people understood the threats and side effects of over population. The students made aware the local people about the population by their slogans.
